

End-to-End Enterprise Transformation Offering with Amazon Web Services

Posted on 10th December 2018

[Save for later](#)

Munich, December 10, 2018 – Fujitsu today announces a new end-to-end enterprise transformation offering which will fast track the move to the AWS cloud for organizations, helping them to improve business processes and speed up innovation. As the result of a new strategic collaboration between Fujitsu and AWS, the new Fujitsu Cloud Service for AWS is available immediately in Europe, the Middle East, India and Africa (EMEIA) and enables customers to move their IT estates to the market-leading AWS Cloud.
