# **RunMyProcess Expands Globally with New Cloud Platforms in North America and Australia**

Posted on 6th July 2017

**Munich, July 06, 2017** – Fujitsu today announced the global extension of its innovative digital Platform-as-a-Service, RunMyProcess, with the addition of new regional cloud platforms in North America and Australia, in addition to existing platforms in Europe and Asia. The capacity increase will help support and address the growing digital transformation needs of organizations with strong regional compliance requirements for data sovereignty, regulation, security and low latency.
