RunMyProcess one of the most promising BPM Solution Providers

Posted on 24th March 2017

RunMyProcess (RMP) is proud to be recognized as one of the **20 Most Promising BPM Solution Providers of 2017** from CIOReview Magazine. Since its inception, RMP has been using the power of the cloud to transform the ways in which companies are connecting end-to-end processes, helping them reach their full potential. RMP is a cloud platform designed to quickly and securely connect digital solutions, extending [G1] systems and processes in a faster, more reliable way for enterprise customers.

At present, Business Process Management (BPM) solutions are evolving as demands increase to integrate human-driven processes into standard automated business systems. Improving the management of an enterprise's end-to-end business processes achieves three crucial outcomes: 1) Provides clarity on strategic direction, 2) Aligns relevant and required resources, and 3) Increases discipline in daily operations. With the implementation of emerging cloud technologies, companies are quickly adapting and embracing the shift to this digital transformation.

RunMyProcess is honored to be distinguished by a panel of prominent CEOs, CIOs, VCs, analyst, along with CIOReview's editorial board for this recognition.
